

Maths

This term in maths we will be looking at time. We will be covering days, months and years and chronological order. We will be learning o'clock and half past.

English

In our phonics session, we will develop our sound recognition. We will use the sounds that we have learnt to both read and write words. We will read books that are consistent with our growing phonic knowledge.

In our English sessions, we will be exploring 'imagination and dreams'. We will use a text to develop our skills of inference and prediction.

In class we will also develop our skills as communicators, working on both our speaking and listening skills.

Science

In science this half term we will be looking at light.

We will be exploring why we need light and reflection. We will explore opaque, transparent and reflective materials.

Other Curriculum Areas

PE

Our PE session will continue to be on Tuesday afternoons. This half term, we will explore athletics. We will develop our accuracy when throwing, jumping and running and look at how we can work as a team.

Computing

In computing, we will be developing our computer skills and digital literacy. We will learn how to debug and problem solve throughout the term using our programming skills.

Formal - Bridging Class

Teacher: Jessica Swaddle

Other Curriculum Areas

Art and Design Technology

Our DT topic this half term is 'Moving Pictures'. This will be taught on Wednesday afternoons. We will learn how to design and make our own story book, based around Grace Darling, with moving parts!

In art this term, which will be led by our HLTA Ellie, we will be looking at collages inspired by Henry Matisse. Learners will create their own collage by the end of term. This lesson will take place on a Friday morning.

Humanities

Our topic for humanities this half term is 'coasts, oceans and seas'. We will look at different features of the coast and we will explore the human and physical features of our local coast. We will also look at the difference between local and distant coasts.

Personal, social and emotional development

This half term, we will be focusing on self-care and healthy eating in our personal development sessions. We will talk about how we can use self care to stay clean and look after our bodies. We will also be doing sessions on healthy eating and having a balanced diet.

Our provision in class will also support pupils in developing their own individual social and emotional targets.

We will also develop independence and life skills through the preparation of snacks and drinks.
